Rules of Professional Conduct

Preamble

The Rules of Professional Conduct (*Rules*) are an interpretation and expansion of the Code of Ethics of the Australian Property Institute Limited (*API*), as determined by the Board.

The purpose of the *Rules* is to ensure that high standards of professional behaviour are observed by all *Members*.

The *Rules* do not attempt to provide a detailed or exhaustive list of what to do in every situation. Instead, the *Rules* represent a framework for professional conduct and aims to provide assistance and clarification to *Members* and those who interact with and engage the professional services of *Members*.

Rules 1 to 9 apply to all *Members*, with Rules 10 to 14 also applicable to *API Valuer Members (Valuers)* when undertaking and providing valuation services.

Every *Member* of the *API* must comply with the *Rules*. A breach of the *Rules* may constitute professional misconduct which may be investigated by the *API* in accordance with the procedures outlined in *API Policies*.

The Board may approve additional rules that apply to specific membership categories and/or certifications from time to time.

The Rules of Professional Conduct is effective from 4 April 2021.

Definitions

The definitions below have been included for interpretation and understanding of certain stated terms used within these *Rules*. Where a defined term is included in these *Rules* it is identified as an italicised term.

'CPV' means the API's certification of Certified Practising Valuer.

'draft valuation report' means a valuation report prepared by a *Primary Valuer*, but prior to its release/delivery to the client.

'may' describes actions and procedures that *Members* have a responsibility to consider. Matters described in this fashion require the *Members* attention and understanding. How and whether the *Member* implements/follows these matters in undertaking the professional services will depend on the exercise of professional judgment by the *Member*, taking into account the circumstances and the objectives of these *Rules*.

'Member' means a member of the API under the Membership Policy which may include

- **Associate** (AAPI)
- **Fellow** (FAPI)
- **Life Fellow** (LFAPI)
- **Provisional Member** (PMAPI)
- **Student Member**
- **MAPI** membership

'must' indicates an unconditional responsibility to follow/comply with the actions and procedures described within these *Rules*. The *Member must* comply with the actions and procedures in all circumstances where it is described as a requirement within these *Rules*.

'Primary Valuer' in respect of real property or plant, machinery and equipment valuations means an *API Valuer Member (Valuer)*, who inspected the property, undertook the valuation and prepared the report, and;

1. in the case of a real property valuation, is;

- (a) a Provisional Member of API with RPV - PMAPI RPV, or
- (b) an Associate Member of API with CPV - AAPI CPV, or
- (c) a Fellow Member of API with CPV - FAPI CPV, or
- (d) a Life Fellow Member of API with CPV - LFAPI CPV.

2. in the case of a plant, machinery and equipment valuation, is;

- (a) an Associate Member of API with CPV (P&M) - AAPI CPV (P&M), or
- (b) a Fellow Member of API with CPV (P&M) - FAPI CPV (P&M), or
- (c) a Life Fellow Member of API with CPV (P&M) - LFAPI CPV (P&M).

'residential property' means:

PROVIDED however that

- (vi) the highest and best permitted use of the land must be residential use;
- (vii) the land or lot must not be used wholly or predominantly for non-residential purposes;
- (viii) the land or lot is not capable of being subdivided into more than two parcels;
- (ix) the land does not contain a block of residential flats/units/apartments held under single ownership;
- (x) the land is held under freehold title; and
- (xi) the land is not within a retirement village, nursing home (or similar).

'residential property valuation' means a valuation of a *'residential property'* including but not limited to the following:

'RPV' means the *API's* certification of Residential Property Valuer.

'should' indicates responsibilities that are presumptively mandatory. The *Member must* comply with requirements of this type unless the *Member* demonstrates that alternative actions which were followed under the circumstances were sufficient to achieve the objectives of these *Rules*.

In the rare circumstances in which a *Member* believes the objectives of these *Rules* can be met by alternative means, the *Member must* document, in the report, opinion or advice provided, why the indicated action under these *Rules* was not deemed to be necessary and/or appropriate to be followed/complied with.

If a *Rule* outlines an action or procedure that the *Member "should"* follow, consideration of the action or procedure is presumptively mandatory, while the action or procedure is not.
