Why is the study being conducted?

This research project is being undertaken as part of Australian Property Research and Education Fund (APREF) funded research project.

The purpose of this research project is to identify the property workforce of the future, to assess the readiness of property practitioners and property graduates for the future property workforce and to examine changes required in property course curriculum to prepare property graduates with knowledge and skills of the future property workforce.

What does participation involve?

Participation will involve completing a twenty-five items questionnaire with multiple choice, likert scale answers (strongly disagree to strongly agree) and short answers, that will take approximately 20 minutes of your time.

Section A: Respondent's Background information

Section B: The disruption of the property industry

Section C: Preparedness for the future property industries

Your participation in this research project is entirely voluntary. If you agree to participate, you do not have to complete any question(s) you are uncomfortable answering. Your decision to participate or not participate will in no way impact upon your current or future relationship with QUT, UNSW or WSU. As the survey does not request any personal identifying information, once it has been submitted it will not be possible to withdraw.

What are the possible benefits for me if I take part?

It is expected that this research project will not directly benefit you. The outcomes of the research, however, may benefit future property graduates with updated curriculum to prepare them with the future change. You can request a brief summary of the outcomes of the study by sent us an email.

What are the possible risks for me if I take part?

There are no risks beyond normal day-to-day living associated with your participation in this project.

What about privacy and confidentiality?

All comments and responses are coded i.e. it has no possibility to re-identify you in any reports or publications. The research project is funded by APREF and they will not have access to the data obtained during the project.

How do I give my consent to participate?

The submission or return of the completed survey is accepted as an indication of your consent to participate in this research project.

What if I have questions about the research project?

If you have any questions or require further information please contact one of the listed researchers:
